RAIL MOUNTAIN BIKE: GATTAN GO!!

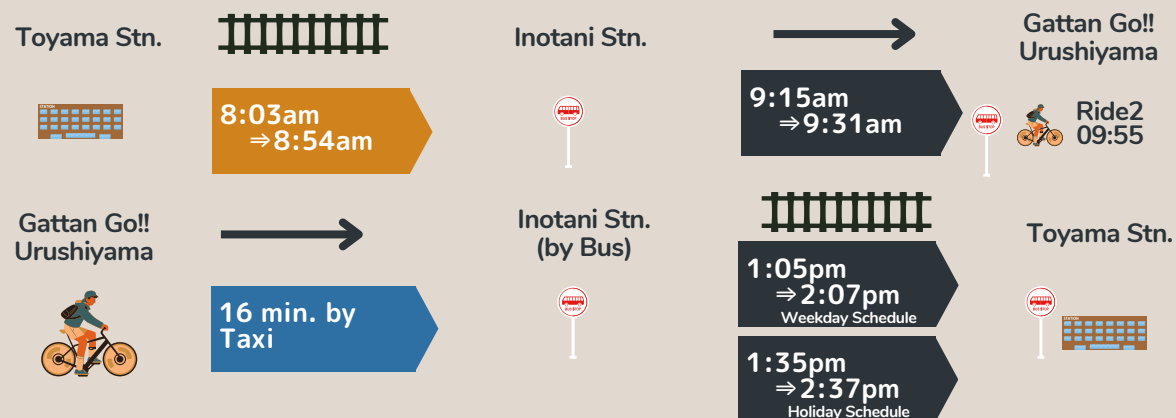

レールマウンテンバイク”Gattan Go!!”

How to get there

<Town Course>

<Canyon Course>

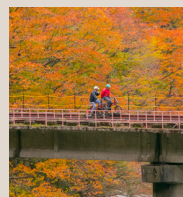

Gattan-go is a unique attraction created by Hida locals that combines mountain biking and formerly used railway tracks. Feel the speed and sounds of the rail as you travel through forests, cross bridges over fast-flowing rivers, and pass through dark tunnels. There is a Town Course for beginners and a more adventurous Canyon Course (participants must be over elementary school age). The Machinaka course can accommodate large groups while both run for about 60–75 minutes. Both courses are loops, with Town Course starting and ending at Okuhida Onsen-guchi terminal station and Canyon Course starting and ending at Urushiyama Station. The Town Course is slightly shorter and less physically demanding than the Canyon Course.
